## NEWS OF THE MORNING.

Specials from the northern and western parts of Wisconsin, report a brisk snow-storm.

William Walter Phelps, the American Minister, presented his credentials to the Emperor of Germany yesterday.

The wedding of Emma Blaine, son of Secretary Blaine, and Miss Anna McCormick, of Chicago, was solemnized at Richfield Springs, N. Y., yesterday at noon.

General Sherman was yesterday elected President of the society of the Army of the Tennessee. Resolutions were adopted asking for liberal pension laws and a recognition of the services of the military telegraph corps.

## EUROPE AROUSED.

It is Afraid Uncle Sam Will Get Away With Its Trade.

New York, September 26th.—A special from Washington says the State Department is receiving just now from our representatives in Europe a great many interesting extracts from European journals, expressing alarm over the effect upon European trade of the coming conference of American nations.

Some of them are almost hysterical in their appeals to South American republics to distrust our advances and continue to trade in Europe.

Le Temps, of Paris, has been publishing a series of articles expressing the gravest fears as to the consequences of the Congress. That paper urges the English and French merchants to make every effort to induce Hispano-Americans to adhere to their ancient systems.

La Epoca, of Madrid, has also been publishing vigorous comments on the Congress.

One of the latest communications received at the State Department is from Minister Grant, dated August 8, 1899. It is a long article from the Vienna Trossenblatt, the organ of the Minister of Foreign Affairs of Austria-Hungary. It says:

"The United States Government has invited all the Governments of the New World to take part in a Congress to be held in Washington under the watchword of United America, and especially America united against Europe. Uniform weights, measures and coinage are to be introduced, a Court of Arbitration appointed to settle disputes between American States, encroachment of European States in connection with American affairs to be jointly opposed, and the most important of all, a uniform tariff rate of customs duties is to be established."

"If these ports should be closed to us by tariff rates as high as those of the United States, a large part of our workmen and a still larger part of German, French and English laboring men would be in danger of losing their employment. It would be a serious loss to Europe if the politicians of Washington should succeed in uniting the whole American continent not in a single free territory, but in a territory surrounded by insurmountable barriers."

A Vienna paper goes on to say that the States to the South of the United States are not likely to submit to the wishes of the millinaires of the Union. It follows up this statement by giving them advice as to where they should sell their raw material and buy their finished products, and urges them not to attempt to change their present European routes, for fear the Americans will take undue advantage of them.

The comments of the papers in three of the principal capitals of Europe are not the only ones that could be quoted, but they are enough to show that the commercial interests of Europe are waking up to the importance of this Congress, and are attempting by all means, fair and unfair, to prejudice it throughout all European countries.

## Governor Waterman.

A San Diego evening paper prints an interview with Governor Waterman, of California, in which he says, touching his political intentions. "I have done my duty, and if the people want to re-select me I will make the race. They made no special effort to cultivate my good nature at the Legislature last Winter. They called me a number of unsavory names and, sitting in their seats in the Capitol building, labeled themselves honest, innocent men. Notwithstanding this, I have endeavored to do whatever my duty as Chief Executive called for, and, slightly reconstructing Henry Clay's maxim, I can assure you that I would rather be right in whatever I do than be re-elected Governor. If I am a candidate again it will be simply for the good I can do my people and the State."

The New York Mail and Express in a railroad article says: It is quite possible that all may be peace and harmony at the Northern Pacific meeting, but it will not be of a lion and lamb character. If Villard can secure his own way he will make a radical change in the Board to assure his absolute control of the road.

Private dispatches from New York say that four of the largest jobbers in watches in the country have withdrawn from the trust, thereby breaking the combination.

The Massachusetts bean-eating Republicans oppose any increase in the coinage of silver. We hope they may be compelled to eat beans three times a day.

The Destruction of Whitefield's Tabernacle Ordered.

Special to the Journal.

LONDON, September 26th.—The old unsightly building in the Tottenham Court road, known as Whitefield's Tabernacle, has to be dismantled. The foundations have given way, the walls have fallen apart and the whole edifice is condemned as dangerous. The foundation stone of this structure was laid in 1756 by George Whitefield, and he was largely aided in its construction by Seledia, Countess of Huntingdon, who not only contributed largely herself but gathered funds from friends at Court, including royalty itself. David Garrick gave £2,500 and Benjamin Franklin contributed largely of his means.

Among those who attended the old tabernacle in former days may be mentioned Lady Huntingdon, Lord Chesterfield, Bellingbrooke, Horace Walpole, Garrick, Franklin, Hume, Goldsmith and Joshua Reynolds. The author of the "Rock of Ages" has buried here.

Mexicans Prevent An American Officer From Arresting a Cattle Thief.

Special to the Journal.

SAN DIEGO, September 26th.—Constable Ellsworth went to Tia Juana yesterday to arrest two men, Otto and Wolf, for smuggling cattle across the line. Wolf was arrested on the American side of the line but when the Deputy crossed over onto Mexican soil for Otto he was surrounded by ten armed men, including two Mexican officers, who, with weapons at his head, compelled him to surrender his arms and return to American soil. A Mexican guard was provided and Otto and he paraded the streets in view of the officers. Wolf will be sent to Los Angeles to-night. The men had a band of 52 cattle ready to drive across the line.

Timber Land Troubles.

Special to the Journal.

WASHINGTON, September 26th.—Officials in the General Land Office say they are not aware, as stated in a Portland, Oregon, dispatch, the Government is withholding from settlers in Oregon patents for timber land to any great extent, on the ground that the lands are agricultural. There are some cases held up pending investigation by special agents, to determine the character of the land. The great trouble land officials have to deal with, they say, is to prevent violations of law in regard to entry of timber land not only in Oregon, but in the Northwest generally.

"No Irish Need Apply."

Special to the Journal.

Boston, September 26th.—The Dorchester branch of the British-American Association last night resolved that no British-American can vote for Mr. Brackett (Republican candidate for Governor) in this campaign and be true to the principles of the British-American Association. This action is based upon the statement that Brackett was invited to attend the Queen's jubilee and banquet and refused, and a short time after made a speech at a Land League meeting.

A Destructive Fire.

Special to the Journal.

SANTA ANA, Cal., September 26.—The fire which has been burning for the past two days still continues in the canyons. In the upper part of Santa Barbara county it is estimated that \$200,000 worth of property, including timber and feed, has been destroyed during the past week.

## THE BASE BALL BOYS.

Corporal Tanner and the Commission.

A Dinner to Minister Phelps.

The Tanner Report.

Special to the Journal.

WASHINGTON, September 26.—The Evening Capital says the report of Messrs. Ewing, Campbell and Bruce, the commission that investigated the Pension Office, though closely guarded by the Interior Department officials, is gradually becoming known. It is known the report takes up each retiring case separately, and each case is an exhibit in itself. Stress is laid upon the fact that Deputy Commissioner Hiram Smith, Jr., received over \$6,000 as a retiring. This action of his comes in for severe criticism in the report. Whether Smith returned this \$6,000 or not the report does not state. Smith receives his pension at the Topeka agency. Secretary Noble, in view of the report of the Commission, has himself questioned Mr. Smith as to the facts attending the retiring.

The report also condemns Squires especially for his action in making cases special. It states he possessed the stamp of Tanner, as Commissioner, and affixed it to papers without the Commissioner's knowledge. A number of such cases, a very large number, is given and Commissioner Tanner criticized for his carelessness in thus intrusting his official prerogative to a mere private secretary, who violated the confidence reposed in him. Of the names of Pension Office officials who caused themselves to be rejected from a conspicuous part of the report, several were discharged at the time by Secretary Noble, and they now point to the fact that one who received the largest amount of all, Deputy Commissioner Smith, is still in office. The members of the Board who made the investigation have intimated to the reporter that the chief culprits were still in position but would soon follow Tanner into private life.

Revolutionizer of Prices and Re-adjuster of Values

—IN—

## STAPLE &amp; FANCY DRY GOODS

## GENTS' FURNISHINGS,

## HOUSEHOLD FURNISHINGS,

## READY-MADE CLOTHING

## And BOOTS AND SHOES.

Please note the various reasons by which I claim I have advantage over all competing houses:

1st. I BUY FOR CASH, and cash only.

2d. I VISIT THE MARKETS IN PERSON, frequently, and buy my own goods myself, for the lowest possible spot cash price.

3d. MY AIM AND AMBITION IS BIG BUSINESS, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view—to give everybody good value for their money—success is already achieved, as I challenge anyone to dispute that I make the lowest prices.

4th. MY STORE IS THE THE LARGEST AND BEST LIGHTED of any in the city—the three large plate-glass show windows which ornament the building would do credit to a large store in a large Eastern city, light being of great importance in any well-regulated store.

5th. I ENGAGE THE BEST AND MOST EXPERIENCED AND SKILLED SALESMEN that can be found in this country. W. R. Lett has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.

6th. I DO JUST AS I ADVERTISE; I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that. Nevertheless many of our merchants of to-day advertise under the head of selling goods at cost.

7th. ALL GOODS ARE MARKED IN PLAIN FIGURES, and no goods are misrepresented.

HAVING GIVEN SEVEN REASONS WHY I LEAD ALL COMPETING houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments

## In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including fine French Cashmeres, French Camel's Hair, Beattie Cloths, French Foulis, Tricot Cloths, Tricotine Cloths, Albatross, Nuns' Veiling, French Debeiges, Fancy Striped Alpaca in plaids and stripes. I keep all the leading patterns found in the market.

## The Black Goods Department

Is well stocked with all the latest and best known brands of French Cashmere, French Camel's Hair, French Solid, Albatross, Nuns' Veiling, Sicilian Cloths and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

## The Corset Department

Receives special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

## The Kid Glove and Button Department

Is replete with all the shades that can possibly be obtained this side of the Rocky mountains.

## The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hosiery that are manufactured on this coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to the

## Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—"I using their own language—they were tired of paying high prices any longer. I subsequently ordered the above stock, and will say that my success in that department has surpassed all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

## In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark—that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell suits for men from \$5 up.

## In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking to the fact that I enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the largest and best-selected stocks of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

## In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Mashins, etc. Gingham and Calicoes in endless variety.

Thanking the People of Reno and the Public in General for their Kind Patronage for the Past Year, and Soliciting a Continuance of the Same, I Remain, Respectfully,

## THE STATE UNIVERSITY.

An Answer from "Comet" to "Diogenes."

That eminently well named growler and falsifier signing himself "Diogenes" evidently is "no novice," if we are to judge him by the way he uses "belligerence," and by the ready way in which he dodges the main issue by abusing his opponent personally. One would suppose from his over-zealous rush to the defense of his "crucially-kicked friend" that there are two persons in Reno with but a "single thought"—mentally "Siamese twins."

The shoe undoubtedly pinched, or you would not have kicked so hard, "Diogenes." As to "addled brain" and "fools rushing in where angels fear to tread," we would say that "people who live in glass houses should not throw stones." The bray of the jackass is loud; but it hath no terror for those that stand on truth and fight for right. You had better "go to, Diogenes," and in your search for an honest man (turn the light on the public and not on yourself, and you may find one.)

We are sorry that "Diogenes" is not morally strong enough to have the courage of his own convictions. He "mendaciously, recklessly and foolishly" criticized the University. "Comet," in a gentlemanly way, answered and proved the falsity of his statements. When a man is beaten in argument he generally resorts to personal abuse, as "Diogenes" did.  
Now to the real issue, "Diogenes," which you so skillfully dodged by saying: "I am well posted with regard to what I have written, and reiterate every word of it." Having been a resident of Nevada for 14 years, and having been intimately connected with the State University since its establishment in Elko, "Comet" can speak as knowingly as "Diogenes." "Comet" reiterates that your article is false throughout, and lacks even sincere knowledge to back it up.

Your first statement regarding the State University is false. You are either a malicious falsifier or an ignoramus. You say all grades above primary have been admitted to the University. To be admitted to the academic department a student must pass a satisfactory examination in physics, physiology, English grammar and arithmetic (complete), algebra and the elementary branches. For admission to the business department the standard of admission is equal to that of any business school on the coast. By the very nature of the course the standard is not high. Then is it any of your business if they desire to pursue a course of study suited to their wants and circumstances? As to the normal department, we would like to see any primary or grammar school pupil enter. Are you aware of the fact, "Diogenes," that a normal course is in its nature entirely different from a high school course, and that the technical knowledge and special training given there can be had in no high school on the coast? Then is it any of your business if a student desires to fit himself to successfully manage a school in his own State? Are you aware of the fact that the training school is no part of the University, and that it is an absolute necessity as an adjunct to the success of the normal department? If you do not know all this then we can excuse your blind opposition to the University on the ground of ignorance.

As to the statement that pup is dissatisfied with the public school are received with open arms in the University, I know that to be an absolute falsehood, and was present on one occasion when a pupil of that description was refused admission to the University on those grounds, as well as not being able to pass his examination. "Diogenes," you willfully misrepresents things when you say that a student is admitted no matter in how many subjects he fails. You reflect on the Faculty and on the Regents. You can name no such case. The manner in which examinations are conducted compare favorably with any State University. Severe but fair examinations by Professors of eminent ability is what you see.

The State University has in the past three years increased from a Faculty of three to a Faculty of ten, from 35 students to 150. The standard of admission has been constantly raised. Professors of national reputation are in the Faculty. The normal and agricultural departments have not their equal on the coast. The students come from all parts of Nevada, from Oregon and from California. Nevada can offer to her own young men and women educational advantages equal to those of any other State. The University is an institution that will do more for this State than silver, gold or water. While the gold and silver is taken to California to build mansions on Nob Hill and to fill the coffers of her rich magnates, the education, culture and refinement developed from the State University will remain in Nevada to build her up and enrich her history with famous names.

"Go to," "Diogenes," you old, moss-backed fossil, "COMET."

For the State Fair.

The following is from the Carson Tribune:  
It is generally believed that a larger attendance at the coming State Fair will be had than ever before, owing to the fact that the Fair last year proved to the public that all possible had been done to make the visit pleasant, and during the present Summer alterations have been made to still further improve the property. Carson's whole populace should attend the State Fair this season, not only to be neighbors, but in order that the Washoe folks can have no excuse to make for non-attendance at our District Fair.

The San Francisco Post says:  
A new residence will soon be erected on the corner of California and Taylor by Mr. A. N. Towne, of Southern Pacific fame, who says that he intends to build himself a modest, quiet, unpretentious home on the above lot. Mr. Towne says that all talk about a mansion is nonsense. He intends it to be one of the most modest houses on the street.

Special Notice.  
The Opera House dry goods store will be open all this week until 9 p. m.

## ARMY OFFICERS KICKING.

They Don't Like the Idea of Appointing Civilians.

WASHINGTON, September 24th.—Secretary Proctor is hearing a good deal of talk just at present. It comes largely from army officers who are candidates for the vacant Brigadier Generalship resulting from the coming vacancies in staff positions. But two officials will be retired, but there are a host of applications. The reigning officers are Colonel Amos Beckwith, of the Subsistence Department, and Captain Charles H. Hoyt, of the Quartermaster's Department, the former retiring on October 4th, and the latter on September 30th. Besides these, there is also another vacancy that has been left unfilled since the retirement of William W. Burns, of the Subsistence Department, on September 1st, because it was then thought best to wait and fill all three at once.

These retirements necessitate the appointment of two Commissioners of Subsistence with the rank of Captain and one Assistant Quartermaster with the same rank. It is ordinarily supposed that such vacancies shall be filled by the promotion from the line of the army, and of course service men declare that they shall be so filled. But the belief is growing that Secretary Proctor and the President intend to take advantage of the law passed during Arthur's Administration, which provided that such appointments might be made from civil life. The law was passed by Congress without much opposition, and in fact with but little notice. Soon after its passage President Arthur appointed Henry J. Hainsworth, a brother-in-law, to be Captain in the Quartermaster's Department. President Cleveland, however, refused to use his opportunity in this direction, and insisted on filling all vacancies in these departments from the army, arguing that, in his opinion, appointments should be made by promotion with regard for service in the army.

It is now said that the law is to be revived, and officers are feeling pretty blue over the prospect. Staff appointments are regarded as capital prizes by them, and if the appointing powers should decide to widen the field of outside patronage by availing themselves of the old law, of course the chances of promotion beyond the slow routine of line retirements and death will be materially lessened.

The Adjutant General Department, Pay Department and Ordnance Department are so constituted by law that vacancies must be filled from the army, while the Quartermaster's Medical Subsistence and Judge Advocate's Departments are open to civilians. Thus if the outside appointment policy is followed in the designation to be made to vacancies next week, it may be laid down as a pretty sure thing that during the next four years the staff chances of the army officers, which have heretofore been one of the bright spots on their horizon, will be lessened by half.

It is regarded as quite likely that in case the appointees are civilians they will be recruited from the ranks of the Grand Army of the Republic.

The retirement of Colonel Brewster will cause the promotion of Lieutenant Colonel George Bell to Colonel, Major Mitchell Small to Lieutenant Colonel, and Captain Charles B. Penrose to Major.

## QUINCY FAIR.

Dan Dennison Astonishes the Country With Race—An Honest Jockey.

A Quincy dispatch, of the 24th, gives the following particulars of the opening day of the Quincy Fair:

The Eleventh District Fair opened with a good crowd, considering it was the first day. The day was pleasant for racing. Pools were not selling very briskly, and the only gambling at the track was a wheel of fortune. The town is full of gamblers, and the "tiger" grows every night.

The opening event was trotting, for the 2:30 class, three in five; purse \$400. Three horses started—E. P. Smith's Engineer, Bransford's May Queen and Dan Dennison's Babe. Babe sold for \$15 against \$8 on the other two. Babe won the race easily in three straight heats. Time—2:34, 2:31 $\frac{1}{2}$ , 2:31.

Running race, one mile dash, 3-year-olds; purse \$250. Pools sold \$30 on Red Rio to \$10 on Colingwood. Three horses started—Dyson named Colingwood, J. Stephen Billie, and Laz Levy Red Rio. Red Rio won the heat by one length. Time—2:01.

The third and last race was running, half mile and repeat; purse \$200. Four horses started—Hinkler named Joaquin; Dyson, Lige Clark; Stephen Red Rock, and Falkner Coleman Red Rock sold in the field, and the boys went broke. He won both heats easily. Time—50 seconds and 51 $\frac{1}{2}$  seconds.

Frank Spring, the rider of Red Rock, had trained him, and thought another horse was the winner. Frank had \$100 worth of Clark pools in his pocket, and he rode Red Rock, the winner. Score one for an honest jockey.

The stock barns are filled. There will be a good exhibit.

## WHAT ON EARTH

The reason people will not, can not, or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at such a price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEECH'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

Driving Cattle to Churchill.

The Silver State says:  
P. Sweeney is driving a lot of steers to Churchill county to be fattened on alfalfa. Later in the Fall he will drive two or three hundred cows to Churchill to winter. He purchased a lot of hay near St. Clair to feed stock this winter.

Sullivan and the Tariff.

Chicago Herald.

If Mr. Sullivan goes to Congress it is hoped that his personal desire for the removal of the tax on whisky will not overcome his loyalty to sound tariff reform principles.

## Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's.

Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "goodness at home"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers, and no record of sales abroad.

Peculiar in its popularity in so short a time, and retained its popularity of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla.

Sold by all druggists. Sixty for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

MISCELLANEOUS.

W. D. ANDREWS,  
—PROFESSOR OF—  
VETERINARY DENTISTRY,  
Office at Truckee Stable, B. No. Nevada.

ALL EDUCATED VETERINARIAN ADVOCATE  
Veterinary Dentistry, well knowing that no  
other method has yet been discovered that pro-  
duces the same satisfactory result. I cut the front  
teeth of old horses so that the back teeth come to-  
gether. Very few horses, young or old, but have  
more or less sharp edges or rough projectors upon  
their molars. These sharp points lacerate the  
mouth, thereby causing lameness, and the horse  
he tries in various ways to rid himself of the  
trouble. Some lose the head, droil or stoiber;  
others start suddenly or stop short, and some shy,  
drive sideways or hold their head in an unusual  
manner.  
Blindness in one or both eyes, a rough coat of  
hair, a suffering horse and disagreeable driver is  
caused by a defective mouth. I carefully remove  
all irregularities and place the mouth in a level,  
natural condition.  
Veterinary dentistry is an act of humanity. It  
not only relieves suffering but produces a dis-  
pleased driver, and gives you a healthy horse  
whose life is prolonged at least five years.  
I have had eight years of experience in this busi-  
ness and am qualified to give thorough satisfac-  
tion.
